

# HealthSystems

Installation by HealthSystems. Innovation by GE.

Leading-edge healthcare technology to grow your practice, expert training to guide you, and responsive local support any time you need it. That's our commitment to you.

## It's time.

Healthcare delivery has reached a critical milestone: the time for electronic medical records (EMR) has finally arrived, fueled by the federal stimulus (the American Recovery and Reinvestment Act, or ARRA) that provides specific financial incentives for EMR meaningful use.

Are you ready to claim your share?

No company is better positioned to help you than HealthSystems. As the exclusive installer of **Centricity Practice Solution**, the incredibly powerful technology developed by GE Healthcare, we can help you transition painlessly and affordably to a CCHIT-certified EMR so you can:

- improve your financial and clinical performance
- track and report meaningful use of our CCHIT-certified software to meet federal requirements
- collect your federal stimulus dollars

And because Microsoft-based Centricity is so widely used around the country and backed by GE Healthcare, you can rest assured it gets the kind of attention, support, and ongoing updates you'd expect from a worldwide leader.

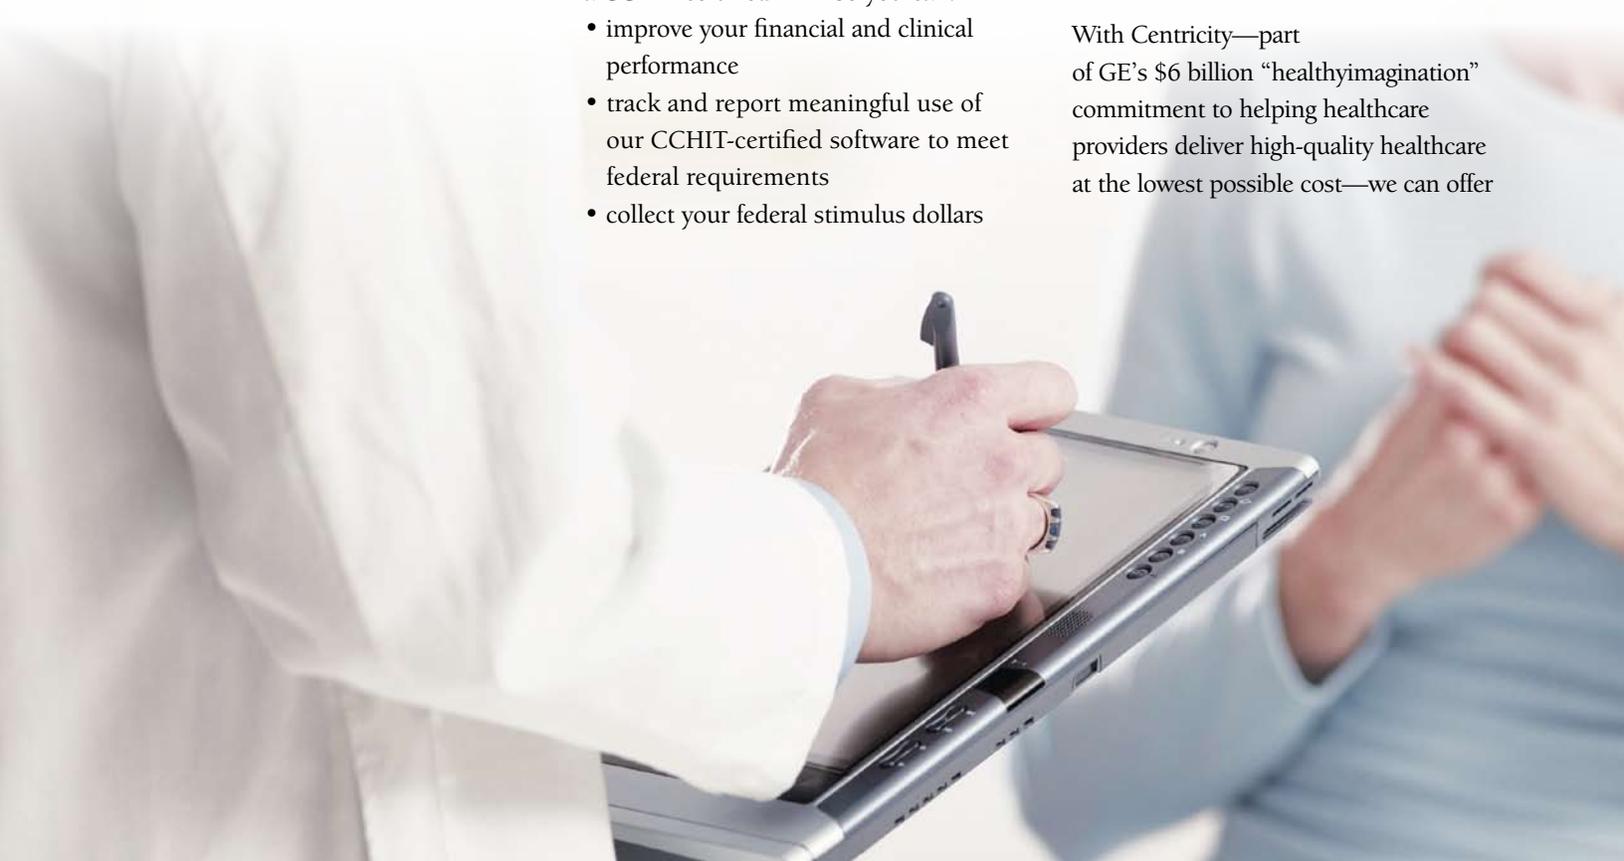

## Who are we?

HealthSystems is a physician office computer software and technology services company. We specialize in practice management and EMR, providing trusted advice, sales, installation, training and support to hundreds of physicians in the Southeast.

GE Healthcare  
Centricity Practice Solution

With Centricity—part of GE's \$6 billion "healthyimagination" commitment to helping healthcare providers deliver high-quality healthcare at the lowest possible cost—we can offer

# Training, Service and Support.

you powerful, profit-focused and highly customizable software solutions:

- **Revenue Cycle (Practice Management) Software**

Centricity is used by over 35,000 clinicians nationwide. GE Healthcare is a worldwide leader and innovator in the development and management of healthcare technologies that help improve financial and clinical performance. This has been HealthSystems' primary focus from the start.

- **Electronic Medical Records**

Thousands of physicians use Centricity to manage millions of patient records. In fact, for over two decades, it's been the leading EMR for ambulatory care.

## Expert training means easy adoption

You have a lot on your plate. You don't have a lot of time, and you sure don't want to have to learn something so difficult that nobody will use it. We know that. Which is why we've staffed our company with some of the best, most knowledgeable trainers in the business—people who have worked extensively in health information technology. We won't leave until you get it—and get it right.

Adopting will never be an obstacle as long as you work with HealthSystems. We guarantee it.

**Bonus:** Because there are so many Centricity users across the country, there are ample opportunities for exchanging ideas at HealthSystems regional and GE national user conferences.

Through groundbreaking technology, GE Healthcare is developing IT solutions to make real-time clinical decision support more accessible and making more products that meet local needs at affordable price points.

## Prompt, personalized service with live phone support!

We're local—HealthSystems only services our valued clients in Georgia and Alabama. By keeping it local, we are able to provide the very best, most responsive support available anywhere. In fact, when you call us for help, you get a live person on the phone, not a frustrating voice mail menu. And yes, we answer e-mails *quickly*.

Plus, we offer online training and support access, Q & A archives, and ongoing courses and seminars throughout the year.

Maybe that's why we've been in business since 1996, serving over 1,000 physicians in the Southeast.

## When you're ready, we're ready for you.

Get the most from your technology investment. No company is better prepared to help you improve patient care and profitability, reduce costs, and stay compliant in the often-changing regulatory climate that defines today's healthcare. Call HealthSystems today at 800.834.8359, or visit us online at [HealthSystems.net](http://HealthSystems.net).

There's no other EMR like Centricity, and no better value than Centricity by HealthSystems. If you'd like references from our existing customers, we'll be happy to supply them.
