

# What is Phreesia? \ FREE-zhuh \

Our innovative point-of-service solution digitizes intake, automates eligibility and benefits verification, calculates and collects patient responsibility, and more—all before the patient sees the provider.

**Maximize your investment in GE Healthcare with Phreesia.**

## Drive efficiency and profitability throughout your organization

### Manage your front office

- Accelerate intake with electronic, self-service patient check-in
- Ensure meaningful use compliance and up-to-date patient data with electronic consent forms, smart interviews and risk assessments
- Automatically verify insurance and deductible detail in real time
- Automatically upload demographics into Centricity Practice Solution via the Centricity Interface Utility, and demographics and financial information into Centricity Group Management

### Maximize patient payment

- Automatically calculate accurate copayments, and ask all patients to pay copays and open balances before the exam
- Reduce accounts receivable with Phreesia’s robust payments suite, including online and mobile payment applications
- Gain deep insight into your organization’s financial health with our powerful analytics suite

## Leading healthcare organizations choose Phreesia and GE Healthcare to revolutionize their point of service

#### IMPLEMENTATION

We make setup easy for you! Our expert implementation team handles 95% of the configuration, and customizes the solution to your unique workflow needs.

#### TRAINING

We’re dedicated to maximizing Phreesia’s impact in your organization, and our team trains your staff on how to optimize our point-of-service solution.

#### INTEGRATION

Phreesia integrates with GE Healthcare to deliver a seamless patient check-in experience. Reduce manual data entry, increase cash flow and collect more accurate patient information.

#### WE STAY WITH YOU

Phreesia provides ongoing support, upgrades and applications that will help you maintain best practices across your sites.
