ViewPoint 6
Ultrasound PACS and Reporting Solutions

Designed for OB/GYN Professionals
When you have a busy practice and you need to thoroughly document and archive all your exams, ViewPoint* 6 can help make your workflow easier, faster, and simpler.

Advanced Image Review - Designed for Ultrasound
A clearly laid out image viewer helps you manage all the images you send from your ultrasound systems in one place, whether you send 5 or 500 images each day. The ViewPoint 6 image viewer allows you to:

- Easily access and compare images from a past study
- Utilize advanced image tools to aid in diagnosis:
  - Auto play clips
  - Measure and annotate
  - Rearrange images
  - Post-process volumes using the integrated 4D View program
- Store measurements

Professional Reporting Simplified
Your ultrasound reports can include everything from images and measurements to results and recommendations. ViewPoint 6 can help you create comprehensive and easy to read reports in less time.

- Use ViewPoint 6 to help reduce manual data entry and eliminate paper worksheets with automated measurement transfer
- Apply quick report templates for efficient reporting
- Easily add images and graphs to complete your report
- Customize forms, fields, and reports to your preference

View patient information, exam data, and images all in one view.
To support you in your daily routine, ViewPoint 6 comes with a wide variety of reports, based on national and international guidelines.

The OB/GYN reporting module includes:

- Medical History
- Early Pregnancy
- 1st Trimester Ultrasound including FMF Risk Assessment
- 2nd/3rd Trimester Ultrasound
- Growth Scan
- Fetal Wellbeing including Biophysical Profile
- Pelvic Ultrasound
- Consultation Letter

Streamlined Workflow and Comprehensive IT Integration
From the start of the exam to final storage, ViewPoint fits into your workflow as a scalable solution designed to simplify your daily routine. A single click allows you to archive all exam information and send a report to an EMR or a colleague. ViewPoint 6 supports your ultrasound workflow, helping enhance efficiency and data quality.

ViewPoint 6 connects seamlessly to your existing multi-vendor ultrasound devices and IT systems to help enhance your current investment.
