

# Centricity<sup>®</sup> EDI Services

## Hosted Claims Manager services brief

Centricity EDI Hosted Claims Manager™ is a rules-based, front-end clinical editing tool that allows you to review claims before submission. Hosted Claims Manager offers database editing functionality and a flexible rules engine that applies your customized rules to payer-specific contracts before claim submission, helping to reduce claim denials, shorten the accounts receivable cycle and increase the timeliness of collections.

### Key benefits

#### Supports improved revenue cycle efficiencies

- Allows you to correct incomplete or incorrect prior to submission, reducing your claim denials, potential underpayments and costly re-work
- Assists in prompt reimbursement and helps reduce days in A/R

#### Helps you improve claims accuracy

- Offers sophisticated relational editing that helps optimize your accuracy and efficiency for ICD-9 and CPT-4 coding
- Checks claims against payer-specific contracts before submission
- Captures claims data for analysis and releases complete claims for submission while delays claims needing review
- ICD-10 ready

#### Supports regulatory compliance

- Evaluates claims against numerous coding rules and detects Medicare Correct Coding Initiative edits
- Includes the most current Medicare Local Coverage Determination (LCD) edit

### Solution highlights

#### Powered by Optum<sup>®</sup>

- Offers proven, industry-leading clinical editing engine (now with LMRP/LCD)
- Includes over three million coding relationships, including both Medicare and commercial coding

#### Advanced claims management

- Evaluates claims automatically before they are submitted to payers
- Provides ability to build a rule for any payer guideline based on multiple criteria such as business rules, procedural rules and company policies

#### Rapid install and continuous improvement support model

- Enables a typical installation of between one week and three months, depending upon the product mix
- Operates as a cloud-based system, eliminating the need for a local server
- Requires minimal training
- Includes regularly scheduled rejection and denial reviews provided by GE
